HUMANITARIAN INTERVENTIONS For IDPs 2022

Contents

Introduction 2

Section 1 : Geographical Scope of Humanitarian Interventions 3

Section 2 : Humanitarian Interventions 5

Section 3 : Humanitarian Partners 13

Introduction

Based on the second strategic objective of the Executive Unit, that is, to protect and assist the displaced persons and communities affected by displacement, the Executive Unit is keen to reflect this objective into reality. It seeks through coordination with humanitarian partners to protect and assist the displaced persons in camps and houses and raise their needs in the various humanitarian sectors to humanitarian partners to provide humanitarian aid that may help alleviate the IDPs suffering going on since 8 years.

The Executive Unit issues this report that highlights humanitarian interventions in all governorates by sector that were conducted by partners coordinated with the Executive Unit.

In coincidence with the issuance of this report, the Executive Unit for IDPs calls on all humanitarian partners to coordinate with the Executive Unit to distribute humanitarian aid in order to ensure fair distribution and equitable access to the poorest and neediest areas.

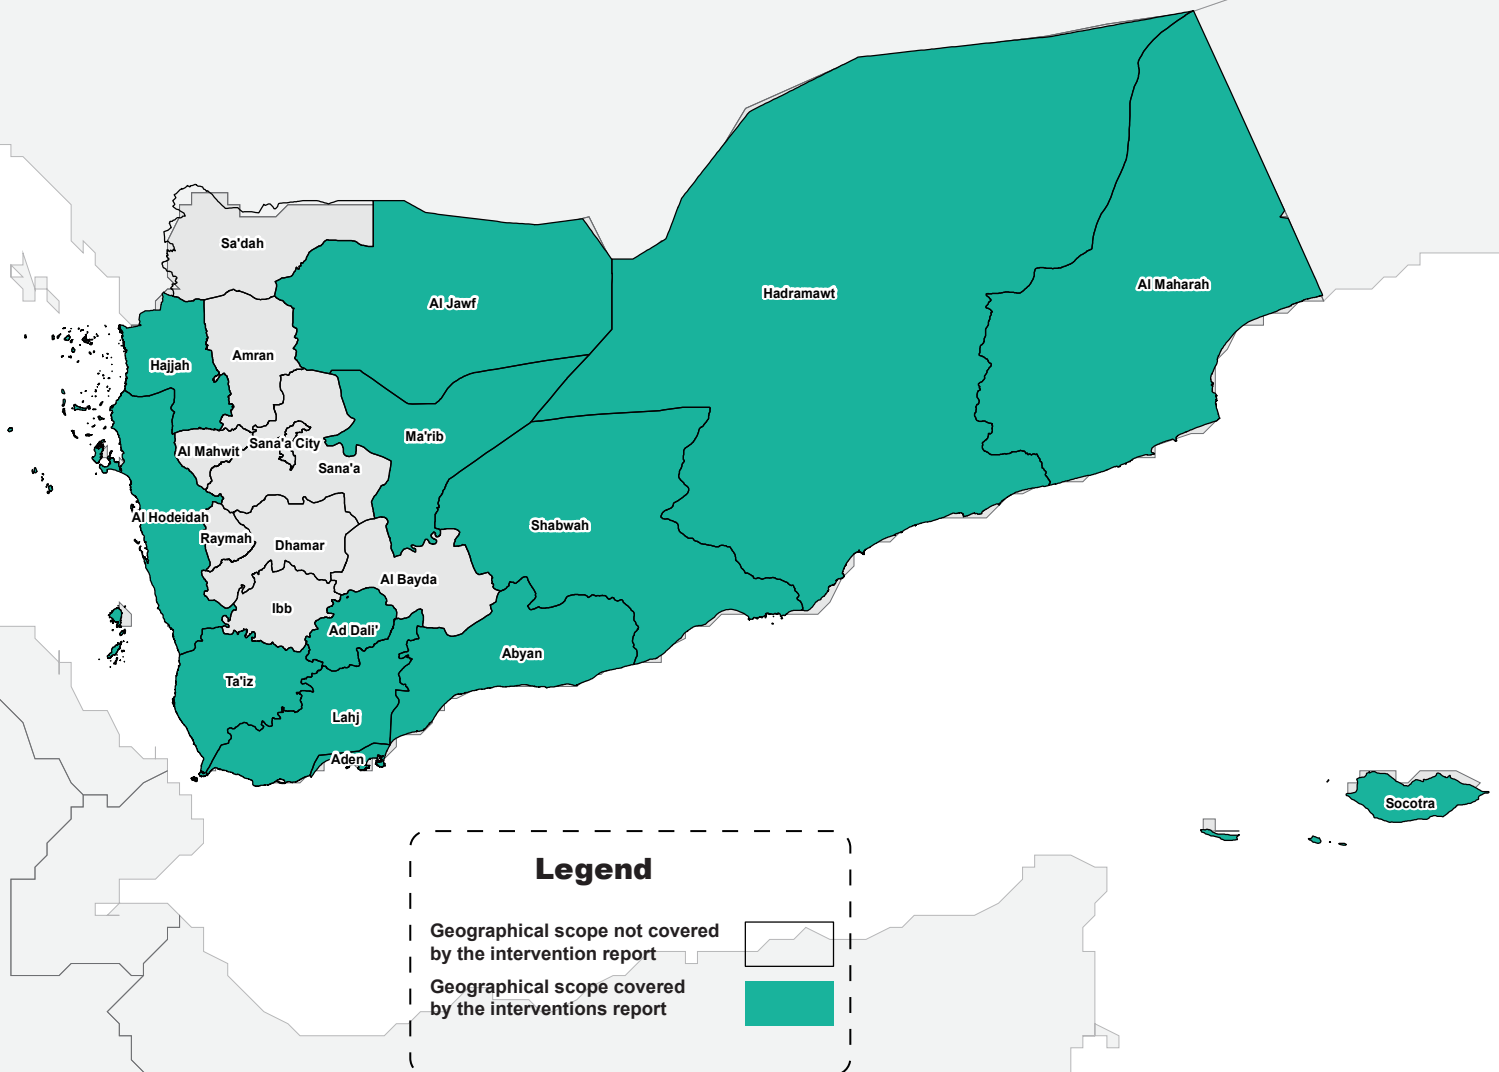

Section 1

Geographical Scope of Humanitarian Interventions Distribution

Geographical Scope

The geographical scope of humanitarian interventions distribution include all governorates managed by the legitimate government (i.e Aden - Lahj - Al-Dhalea - Abyan - Al-Mahara - Shabwal - Hadramawt - Al Hodeidah - Taiz - Marib - Hajjah - Socotra), where humanitarian interventions for IDPs in houses and camps were monitored for humanitarian partners coordinating with the Executive Unit for IDPs.

The Executive Unit for IDPs Camp Management procedures

The Executive Unit has taken many procedures to provide assistance to the displaced persons and to ensure that the humanitarian assistance provided by the humanitarian partners reaches the beneficiaries. These procedures are as follows:

- Follow-up the humanitarian needs of the displaced persons and raise them to the humanitarian clusters according to the different humanitarian sectors
- Signing sub-agreements for projects implemented in the field of displaced persons, in a way that ensures that the displaced persons benefit from these projects.
- Providing facilitation to local and international organizations involved in the field of the displaced persons, in a way that facilitates their work in the field.
- Coordinating with the local authorities in the governorates in order to facilitate the provision of humanitarian assistance to the displaced persons in houses and camps.
- Follow up on the issuance of customs exemptions for international organizations in order to increase humanitarian assistance to the displaced persons to alleviate their suffering.
- Sending appeals to humanitarian partners and cluster to provide relief to displaced persons affected by natural disasters such as floods and rains.
