

### Emergency Report on Heavy Rains and Floods in Three IDP Camps in Al Habilain, Radfan District, Lahj Governorate

#### Summary

Severe weather conditions, including heavy rains and subsequent flooding, have severely impacted 165 HHs living in Al Mahwa Al A'ala-Mahwa'a Al-Kahraba, and Al-Mahwa'a Al-Asfal IDP camps in Al Habilin, Radfan District, Lahj Governorate. The rains and floods have caused significant damage to shelters, essential household items (NFIs), and food supplies. This report details the extent of the damage, immediate needs, and recommended actions for humanitarian organizations.

**Executive Unit Procedures**

The Executive Unit has been working continuously to monitor the situation in the affected governorate, including the impacted sites and camps. It has implemented a comprehensive package of actions including:

- Visit sites affected immediately after the rainfall to document the damage, assess the situation and identify needs.
- Communicate with local authorities in the affected governorates and coordinate with humanitarian partners to provide humanitarian assistance to the affected families
- Follow up on updates on the field developments, assess, identify the needs, issuing reports and sharing them with humanitarian partners.
- Coordinate with humanitarian partners to conduct urgent interventions.

**Recommendations**

The Executive Unit recommends the following

- It is necessary to Implement urgent interventions by international organizations and non-governmental organizations to provide emergency assistance to affected households.
- Strengthening the capacity of the Executive Unit by completing the equipping of the Early Warning Centre in order to reduce the effects of climate change.
- It is necessary to find permanent and effective mechanisms to confront climate change in coordination with the relevant government agencies.
- It is necessary to exert joint collaborative efforts between local authorities and non-governmental organizations to identify safe locations, away from flood-prone areas, for IDP camps.
