

Update: Report on the Damage Caused by Heavy Rains and Flash Floods in IDP Camps in Abyan Governorate

Date: 23-AUG-2024

Introduction

Between August 16 to 22, 2024, several IDP camps in the districts of Khanfer, Zinjibar, Mudiyah and Ahwar were hit by heavy rains. This caused floodwaters to rise in both the primary and secondary channels of Wadi Bana and Wadi Hassan. These floods have completely destroyed the shelters of some displaced households and members of the host community, while others have been partially damaged. These households are currently enduring severe hardships. As a result of the flash floods, 25 households were relocated from Wadi Alkud camp to another location in the same area. They are now in urgent need of shelter.

Governorate	District	Site/Camp Name	Total Number of affected HHs	Number of Individuals	Shelter/Tents		NFIs	Food	damages Other
					Completely Damaged	Partially Damaged			
Abyan	Khanfer	Kadmat Lawar	64	284	10	0	64	64	30 Houses completely destroyed + 24 Houses Partially destroyed

		Needs							

	District	Camp/Site	Shelter/Tents	Food	NFIs	Number of Houses	Other:	Remarks
Abyan	Khanfer	11 sites	802	894	894	92	Water borehole	Supporting the owners of the houses , destroyed
	Zingibar	6 sites	294	294	294			
	Ahwar	Masab	10	10	10			
	Mudiyah	Al Erq+Almad eenah	85	85	85			
		Total		1191	1283	1283	92	

The Executive Unit for IDPs Camp Management procedures:

- Conducting field visits to the sites to register the affected displaced households.
- Assessing and evaluating the damages for affected households.
- Issuing an urgent appeal to the intervening parties in the governorate and philanthropists for urgent interventions
- The ExU teams are continuing to assess the damage and determine the needs in several IDP camps.

Recommendations

- Rapid intervention of humanitarian partners to save the affected households.
- Call on the international community to help the government to confront the effects of climate change, build the capacity of the relevant authorities and create permanent and effective mechanisms to confront such situations.
- Joint cooperation between local authorities and non-governmental organizations to find solutions for safe sites and away from the flood stream of IDP camps.
- Strengthening the capacity of the Executive Unit by completing the equipping of the early warning center in order to reduce the effects of climate change on the displaced and confront possible waves of displacement due to these circumstances.
